INSTITUTIONAL **SUNSHINE** LAUNDRY DETERGENT

Designed for institutional and commercial laundries this low phosphorus product is ideal in high volume laundry operations. This product features a controlled foam surfactant system which provides effective removal of difficult soils from all washable fabrics in a variety of water conditions and temperatures. This detergent has excellent wetting and emulsifying agents which aid in the cleaning process. Formulated with non-caustic, alkaline performance builders, it can be used in commercial or residential type equipment.
